AQUACULTURE SCIENCE

# ***SHELLFISH NEWS***

Index of Articles:

Issue 8 (November 1999)  
to Issue 28 (November 2009) inclusive.

**Presented in the following categories:**

Oysters (*Ostrea edulis*, *Crassostrea gigas*, General)  
Hatcheries  
Mussels  
Clams and Razors  
Cockles  
Scallops  
Abalone  
Lobsters  
Crabs  
Shrimps and Prawns  
Sea Urchins  
Water Quality  
Biotoxins  
Food Safety  
Food Quality  
Diseases  
Environment and Sustainability  
Funding  
Institutions and Conferences  
Overseas  
Obituaries

**OYSTERS *Ostrea edulis***

Flat oyster culture - an evaluation of traditional methods	10
Native Oyster Species Action Plan (2 articles)	11
Restoration of native oyster beds in Strangford Lough, Northern Ireland	12
Monitoring oyster spatfall in the Solent	13
Do genes or the environment control growth of flat oyster seed? Results from a European union craft study.	14
Genetic variation in northern European populations of the flat oyster	14
The Loch Ryan native oyster fishery	15
Native oyster beds in Wales	15
Oyster shells as history books	16
What has happened to the natives!	16
Farming the native 'flat' oyster	17
Spat collection in native oyster ponds	17
Evaluation of some factors affecting native oyster stock regeneration	19
Native Oyster ( <i>Ostrea edulis</i> ) Fishery Enhancement in Strangford Lough, Northern Ireland	20
Return of the native – is European oyster ( <i>Ostrea edulis</i> ) stock restoration feasible?	20
Going native at Seasalter shellfish	23
The native oyster in Scotland	25
The Scottish Native Oyster Steering Group	26
Growth and Immunology of cultured European Flat Oysters in the Menai Strait	26
The Scottish Native Oyster Steering Group	27
Restocking of the native oyster in Shetland: habitat Identification study	27
Pilot-scale re-establishment of native oysters in Scotland	27

**OYSTERS *Crassostrea gigas***

Oyster Seed Growing System proves a success for Othniel Shellfish	20
The distribution and abundance of the non-native pacific oyster, <i>Crassostrea gigas</i> , in Devon – a result of climate change?	22
Pacific oyster aquaculture protocol for the UK	25
Project Report - Pacific Oyster Aquaculture Protocol for the UK	26

**OYSTERS General**

Are we all wet on oyster size limits?	8
Pump-pot nursery system for oysters	9
The BST longline oyster system	17
Australian shellfish systems in the UK	21

**HATCHERIES**

Preserved algae - new products for aquaculture	11
Tetraploid Shellfish - a patent issue	11
Cryopreservation of shellfish sperm, eggs and larvae	21

**MUSSELS**

Welsh promote mussel meals	8
Heartbeat rate reveals a mussel's awareness of predation risk.	9
New "mussel disc" is a great mussel saver	9
How to keep eider ducks off mussel farms	10
Conwy Mussel Fishery – the PESCA Scheme	10
A strategy for mussel cultivation	11
The Wash Mussel Fishery: steps to its recovery.	12
A national strategy for mussel seed	13
Tubeworm fouling on Scottish rope grown mussels- minimising the impact on the industry	14
Conwy mussels - a history	15
Towards sustainable mussel cultivation	15
The response of shorebirds to intertidal 'on-bottom' mussel cultivation	16
First long-line experiences at the German North Sea coast	18
D-Day III for mussel farmers!	21
Tides bring feeding bonanza to Menai Strait mussels	23
Freshwater pearl mussel restoration	23
Developments in bottom mussel cultivation, mussel seed supply and management	24
Mussel Seed supply – are hatcheries part of the solution?	25
Potential for offshore mussel culture	25
A lesson on the distinction between validity & vindication	28

**CLAMS and RAZORS**

Determination of appropriate conditions for the depuration of Razor Clams	9
The ecology and fishery of the Manila clam in Poole Harbour	10
Hydraulic dredging for razor clams – progress towards best practice	12
Too close a shave for razor clams?	15
The introduced razor fish <i>Ensis directus</i> in the Wash and North Norfolk	16
Hatchery production of the razor clam, <i>Ensis siliqua</i> .	21
Reproductive ecology of the Manila clam in Southampton Water	27

**COCKLES**

Cockle Farming takes off	8
Initial cockle relaying trials using standard hydraulic cockle harvesting equipment	12
Shell damage studies in the Wash cockle fishery	13

“Wet dredge” cockle harvesting – trials in the Ribble estuary	14
Sands of change - a portrait of the 2002/03 Morecambe Bay cockle fishery	16
‘Wet dredging’ for cockles - further trials in the Ribble estuary	16
Management and sustainability of inter-tidal shellfisheries in SW Wales	23

## SCALLOPS

Effect of handling Scallop spat	8
Recent studies in king scallop cultivation	9
Might scallops need depuration?	10
Assessing the state of shellfish stocks – scallop studies in the western English channel	11
Fouling in scallop aquaculture: friend or foe?	11
Recent studies in king scallop cultivation	12
King scallop cultivation	14
Depuration conditions for king scallops ( <i>Pecten maximus</i> )	14
Recent advances in scallop research	16
The potential for scallop spat collection to enhance fisheries in Lyme Bay	19
The 17th International Pectinid Workshop	28

## ABALONE

Abalones - new prospects for cultivation?	12
The Ormer - a new species for cultivation?	13
Cross-channel abalone workshop	22
European abalone aquaculture	28

## LOBSTERS

Lobsters: The Next Generation	8
Transport of live crustaceans	11
The Northumberland Sea Fisheries Committee lobster "V" notching scheme	12
Successful lobster protection initiative	13
Lobster sniffing: how lobsters capture smells from the sea	13
American lobsters - over here?	14
An evaluation of the lobster fishery in Sussex ~ the effectiveness of current stock protection measures.	15
When American and European lobsters meet	16
Refinement and research lead to better rearing results at the UK's National Lobster Hatchery	19
Effect of Bio-Mos <sup>®</sup> on the growth and survival of cultured lobsters	21
Developing and understanding the use of pre-biotics in lobster culture	23
Lobster escape hatches in Selsey	24
South and West Wales Lobster “V” Notching Programme	27
Canadian lobster workshop and conference	27

**CRABS**

Transport of live crustaceans	11
Soft Crabs, hard answers	12
Crab shelter research project	13
Technological advances in fisheries monitoring: electronic log books in the crab fishery	15

**SHRIMPS and PRAWNS**

A collaborative project to improve stock assessment in the Clyde Nephrops trawl fishery.	10
Toothpaste from shrimp shells	17
Toothpaste from shrimp shells (continued)	18

**SEA URCHINS**

Sea Urchin Aquaculture – the Road from Research to Industry	12
Sea urchins – the new caviar?	13
Development of sea urchin rearing	27

**WATER QUALITY**

The impact of microbiological contamination on the development of shellfish farming in England and Wales	9
Investigations into the impact of surface water run-off from agricultural land into the Dart estuary	11
Assessment of sewage discharge consent applications with respect to micobiological impacts on shellfisheries	12
Re-inspection of Shellfish Purification Centres	12
Shellfish embryos to check pollution	13
Advice for laboratories undertaking microbiological testing of live bivalve molluscs	14
Supplementary guidance for laboratories undertaking the testing of live bivalve molluscs	17
Sewage discharge improvements in the Solent and their effect on the shellfishery	17
Classification of shellfish (live bivalve mollusc) production areas in England and Wales: 1 September 2005 - 31 August 2006	20
UK National Reference Laboratory for Bacteriological and Viral Monitoring of Live Bivalve Molluscs	20
Identification of specific sources of faecal contamination within shellfisheries	23
Sanitary surveys in shellfish production areas in England and Wales	24
Would F+ Bacteriophage be a more reliable indicator than E. coli of pathogen risk in bivalve shellfish?	24
Developing Microbial Source Tracking Methods for Shellfish Harvesting Areas	26

**BIOTOXINS**

ASP in king scallops	11
Scallop shucking method can reduce gonad ASP levels	15
Validation of a rapid method for the detection of marine biotoxins	16
The relationship between phytoplankton and algal toxins in shellfish, Fal Estuary UK	17
ASP ELISA – a validated rapid assay for the determination of ASP levels in shellfish	17
Application of liquid chromatography-mass spectrometry (LC-MS) to detect lipophilic shellfish toxins	18
Automated algae monitoring	19
Research into <i>Pseudo-nitzschia</i> dynamics in Scottish waters	21
Advancing shellfish toxin monitoring	24
Could locusts be developed as an alternative to mice for PSP toxicity testing?	24
Using sediment to help map <i>Alexandrium</i> distribution in UK coastal waters	24
Harmful Phytoplankton, Shellfish Poisoning and Human Health	26
PSP toxin monitoring	27

**FOOD SAFETY**

The impact of whelk handling / storage methods on product quality	9
Research on viruses in bivalve shellfish	14
High pressure processing	15
Seafood <i>Vibrio</i> study	21
Seafish evaluate sodium metabisulphite alternatives	21
Shelf-life of whole, unprocessed crabs	23

**FOOD QUALITY**

Seafood can help tomatoes grow	18
Cod taste better with crab feed	22
Shellfish, the omega-3:6 balance and human health	23
Seafood and Health	27

**DISEASES - molluscs**

Bonamia resistance in flat oysters: a European union craft study.	14
Herpesviruses in marine molluscs	10
Environmental factors and brown ring disease in the Manila clam	11
Chronic mortality in a bivalve mollusc hatchery: a case study	14
Further Bonamia research work in Cork	24
Prevalence of Brown Ring Disease in Manila Clams from Poole Harbour	24
Pacific oyster mortalities – an emerging disease?	28

**DISEASES - crustaceans**

Hematodinium in Norway Lobsters	11
'Pink Crab Disease' in edible crabs	13
A virus infection in European brown shrimps ( <i>Crangon crangon</i> ).	17

**ENVIRONMENT and SUSTAINIBILITY**

Eco Harvester follows new horizons	11
Bird deterrent used in oil spills	13
Maerl: its value as a nursery habitat for commercial species	18
Research to support sustainable aquaculture	19
Shellfish and Seaweeds – addressing the impacts of aquaculture	19
Research to support sustainable aquaculture	19
What's in your estuary?	20
Sustainability at the heart of new European fisheries fund	22
Shellfish Industry Development Strategy	24
Non-native crayfish in the UK	24
Shellfish Industry Development Strategy update	25
ECASA - an ecosystem approach for sustainable aquaculture	25
Shellfish Industry Development Strategy - one year on	26
Distribution of Slipper Limpets around the South Devon Coast	26
Developing an Ecosystem Approach to the management of Manx Fisheries	26
Scottish Aquaculture – A Sustainable Future	26
Shellfish Industry Development Strategy	27
What future for mollusc culture?	27
Shellfish Industry Development Strategy	28

**FUNDING**

A brief guide to aquaculture grants & funding	17
Seafish provide funding support for aquaculture research and development	18
UK shellfish research and development - the big picture!	18

**INSTITUTIONS AND CONFERENCES**

Good-bye Conwy	8
Shellfish studies at C-MAR	17
C- MAR workshop celebrates a decade of success	18
Shellfish research in Shetland	22
The 10th International Conference on Shellfish Restoration	25
Shellfish Restoration Conference (2009)	28

**OVERSEAS**

The edible periwinkle industry in Ireland	9
The Shellfish Culture Industry in British Columbia	10

	<b>Issue</b>
Shellfish Farming in New Zealand	12
The environmental cost of tropical freshwater prawns	12
The Tasmanian pacific oyster industry	13
The Australian stud oyster	13
Oyster restoration in Chesapeake Bay	15
French turn slipper limpets into fertiliser	15
Environmental impacts of freshwater prawn farming in Bangladesh	15
Non-native oysters in Chesapeake Bay, USA	17
Freshwater prawn farming in Bangladesh: how cultivation is financed	18
Scallop Cultivation in Norway – from Reproduction to Ranching	20
Bivalve cultivation in China	21
New guidelines on shrimp farming	22
The Australian stud oyster – a thoroughbred	23
Status and perspectives of the aquaculture industry in Chile	23
Moulting and behaviour changes in freshwater prawn	25
<b>OBITUARIES</b>	
Clarrie Devall	12
Gwion Davies	20
Eric Edwards	27
